Adding Paul W to the cc...

OK, yes, I'll look at Paul W's comments after I finish with the paper.

Paul and Cheryl,

John Vandenberg asked that you, Paul, get and take a look at Paul White's comments from yesterday. Can you do that in addition to looking at the paper? I also had some questions I sent Barbara Glenn that I'll forward to you.

David

I'll look at it now. I probably won't take time to look at other comments attached.

Re. 'some time on Thursday' for a discussion: PKWG (interim discussion of HCHO draft) is 11-noon, and **Ex. 6 Personal Privacy (PP)**

**Ex. 6 Personal Privacy (PP)** Thursday would be ideal for me.

Paul, attached is the MS referred to in my yesterday's email. The package also contains internal comments by NHEERL staff and by Annie Jarabek.

## Ex. 5 Deliberative Process (DP)

Let me know if you can't review and participate in these discussion. Please keep the paper confidential since this hasn't been submitted to a peer-reviewed journal.

Regards,  
Cheryl

Hi Cheryl,

As per discussion this morning, please see if anyone in QRMG could review the attached manuscript by Thursday this week and provide major comments.

Thanks,

Bob

Heads up: there is an NHEERL manuscript on formaldehyde that is currently going through clearance. The paper describes a computational study of formaldehyde dosimetry in the respiratory tract and includes issues on the role of endogenous formaldehyde.

David/Gina - I didn't include the formaldehyde team here because I don't know the full list of team members. Please distribute as needed.

Bob:

Rory Connely is an author on a manuscript, along with several non-EPA colleagues, that is a computational study of formaldehyde dosimetry in the respiratory tract;
